REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art fails to teach a method for manufacturing a straight strip lamination comprising the steps of repeatedly stamping the main slot punch, deactivating this punch and activating the part feature punch and stamping, deactivating the part feature punch and reactivating the slot punch, while feeding the strip with different step distances as set forth in claims 1 and 19.

Daley (1,962,431) discloses a method for manufacturing a straight strip lamination (5) with a press, comprising the steps of: providing in the press a die (18) comprising a main slot punch (39), a separator punch (72), and a part feature punch (40). Daley fails to disclose activating and deactivating the punches or changing the step distances as claimed. Jenkins et al (5,406,243) discloses a method for manufacturing a straight strip lamination with a press wherein a single punch is activated and deactivated (see stage 1 in FIG 1). This reduces the number of punches needed because the single punch is able to create different distances between features. While it may have been obvious to modify the Daley reference to alternate punches, as taught by Jenkins, for the purpose of creating a desired product without complex machinery, the combination would still not show the method set forth in claims 1 and 19, specifically repeatedly stamping the main slot punch, deactivating this punch and activating the part feature punch and stamping, deactivating the part feature punch and reactivating the slot punch, while feeding the strip with different step distances.

The above prior art by itself or in combination with the other prior art cited fails to teach the claimed invention set forth in claims 1 and 19.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
